

Mr Michael Powell,

We understand that the FCC would like to overturn New Jersey's DO NOT CALL law. That would be a greivous mistake. Only now can New Jerseyans enjoy a peaceful dinner at night. With the advent of the Internet Telemarketers have even more availability to the public. We at least need to protect our phones as they are usually answered where as with e-mail you can answer or delete messages in your own time.

Leave New Jersey's Law Alone.

Thanks,
Michael Cooley
